

Assigned Presenter ID	Presenter	Hospital/Institution	Abstract Title
SP1-01	Abel CHEN Kai Yi	Nanyang Technological University	Objective Detection of Subtle Gait Changes in Persons with Preclinical Mobility Limitation using Markerless Motion Capture
SP1-02	Zachary Cheong Jieyi	Nanyang Technological University	Comparison of surgical accuracy and functional outcomes between a CT-based, semi-active robotic system and a CT-less passive robotic system in Total Knee Arthroplasty
SP1-03	DE ROZA Jacqueline Giovanna	National Healthcare Group Polyclinic	Joint conditions and complexity among patients seen by primary care Chronic Disease Management Advanced Practice Nurses in Singapore
SP1-04	Ritesh DEO Zun Xiong	Tan Tock Seng Hospital	Effect of an Anti-adhesive Agent on Range of Motion after Surgical Fixation of Elbow Fractures: A Prospective Randomised Controlled Trial
SP1-05	HENG Tse Chun	National University of Singapore	Predicting Cognitive Decline and Mental Health Conditions through Human Movement Analysis with Computer Vision: A Scoping Review
SP1-06	Yiu Hin KWAN	Tan Tock Seng Hospital	Metastatic tenosynovial giant-cell tumour (TS-GCT) - Is it associated with autoinflammatory disease? A case report and review of the literature
SP1-07	Denzel LIM Ming Wei	National University of Singapore	Patient satisfaction in robotic-assisted versus navigated Total Knee Arthroplasty
SP1-08	Ng Kai Xin Charmaine	National University of Singapore	The Impact of Surgical Timing on Functional Recovery in Elderly (>60) Femoral Shaft Fracture Patients Requiring Orthogeriatric Multidisciplinary Care
SP1-09	NG Yong	Singapore General Hospital	Outcomes of Robotic-Assisted Total Knee Arthroplasty Using Imageless Kinematic vs CT-Based Functional Alignment: A Propensity Score-Matched Analysis
SP1-10	TAY Rong Jie Matthew	Tan Tock Seng Hospital	Determinants of Exercise Adherence among Asian Cancer Patients in Community Based Cancer Rehabilitation
SP1-11	Sherlyn THAM Yen Yu	Tan Tock Seng Hospital	Routine Full Blood Count is Not Necessary in Primary Total Knee Arthroplasty in Modern Day Enhanced Recovery After Surgery Protocol
SP1-12	WONG Mei Xue	Tan Tock Seng Hospital	Direct referrals from National Healthcare Group Polyclinics to Tan Tock Seng Hospital Occupational Therapy: Enhancing access to Occupational Therapy
SP1-13	WU Jingkai Lawrence	National Healthcare Group Polyclinic	Direct access magnetic resonance imaging of the lumbosacral spine in NHGP for lumbosacral radiculopathy
SP1-14	XU Chuanhui	Tan Tock Seng Hospital	Influenza vaccination reduces the onset of rheumatoid arthritis in individuals at risk: a large multi-center study from the TriNetX database
SP1-15	YAP Jiawei Alexander	Woodlands Hospital	Dual-Energy CT-First Imaging for Suspected Occult Appendicular Fractures
SP2-01	Chiui Wai Leong	National University Polyclinics	Strong & Steady: Enhancing physical function and strength through group exercise in pre-frail and frail community dwelling older adults
SP2-02	Bryan CHONG	Ministry of Health Holdings	Arthroscopic Treatment Demonstrates Non-Inferior Outcomes to Open Treatment for Native Glenohumeral Septic Arthritis: A Systematic Review
SP2-03	Lixia GE	Group Office, NHG Health	Cross-sectional and longitudinal associations of multisite musculoskeletal burden with multidimensional health in community-dwelling adults
SP2-04	Shuya LU	Group Office, NHG Health	Descriptive analysis of matched heart failure patients and heart failure patients with osteoarthritis cohort - a population-based study over 15 years
SP2-05	Chuan Guan NG	Tan Tock Seng Hospital	Reliable detection of flat feet can be achieved using smartphone photography and deep learning
SP2-06	Dhruv PRAVEEN	Nanyang Technological University	Factors Affecting Atypical Femoral Fracture Healing Times - The Role of Functional Outcomes in Fracture Healing
SP2-07	TAN En Jie	Tan Tock Seng Hospital	The Economic Burden of Back Pain in Singapore: A Healthcare Perspective
SP2-08	WOON Yong Sheng Eugene	Woodlands Hospital	Psychosocial considerations in chronic musculoskeletal pain disorders: A qualitative study
SP2-09	WOON Yong Sheng Eugene	Woodlands Hospital	What is the Role of the Built Environment (BE) in Outdoor Participation Among Older People with Mobility Challenges?
SP2-10	Trudy Yap Tian Wen	Population Health Campus, NHG Health	Occupational Therapy (OT) Place-based Just-in-time (JIT) pilot
